

## User Stories Version 3

**U1:** As Josh, a TEQ LIP staff, I want to be able to create new login accounts for project staff and participating organizations.

**U2:** As Josh, a TEQ LIP staff, I want to be able to see a list of existing users so I can monitor active users in the system.

**U3:** As Josh, a TEQ LIP staff, I want to be able to adjust access limitations for existing users.

**U4:** As Robert, a support agency employee, I want to be able to upload data, in the form of iCARE templates, to the system so that the TEQ LIP can analyze the data.

**U5:** As Bryan, a UTSC project staff, I want to be able to see all the data so that I can monitor the data in the database.

**U6:** As Josh, a TEQ LIP staff, I want to be able to navigate between pages through the use of a homepage, so that I can do multiple tasks.

**U7:** As Josh, a TEQ LIP staff, I want to be able to create a customized list of variables to query through the data so I can generate reports with the specific information I need.

**U8:** As Josh, a TEQ LIP staff, I want to save my previous customized queries to a dashboard from a dropdown menu so I can generate reports with pre-set queries.

**U9:** As Charlie, a TEQ LIP staff, I want to be able to use preset queries to query through all the collected anonymized data so that I can generate baseline reports.

**U10:** As Josh, a TEQ LIP staff, I want to be able to delete data so that I can remove redundant data and keep the data clean and accurate.

**U11:** As Charlie, a TEQ LIP staff, I want to be able to export the queried data into a CSV file for record keeping.

**U12:** As Amy an administrator at a support agency, I want to be given help throughout the system so that I can easily navigate the system.

**U13:** As Bryan, a UTSC project staff, I want to be able to see all the historical logs so that I can monitor user activity.

**U14:** As Robert an employee at a support agency, I want to be able to change my account password for security reasons so that I have a different password every month to access my account securely.
